IT'S NOT WHAT YOU LOOK AT, BUT WHAT YOU SEE

When we smile our eyes smile back, they capture the room

Our eyes reveal so much about our emotions and are often the first thing to show signs of ageing, stress and fatigue.

The skin around the eyes is particularly fine and fragile. We blink up to 15,000 times per day, we laugh and squint in the sun, so fine lines can form quickly. Slower circulation to this area also accentuates dark circles and puffiness.

Our BEAUTIFEYE protocol specifically targets this difficult to treat area. Focusing on maximizing hydration and improving overall skin quality we can help to reveal and restore your eye contour's natural radiance.

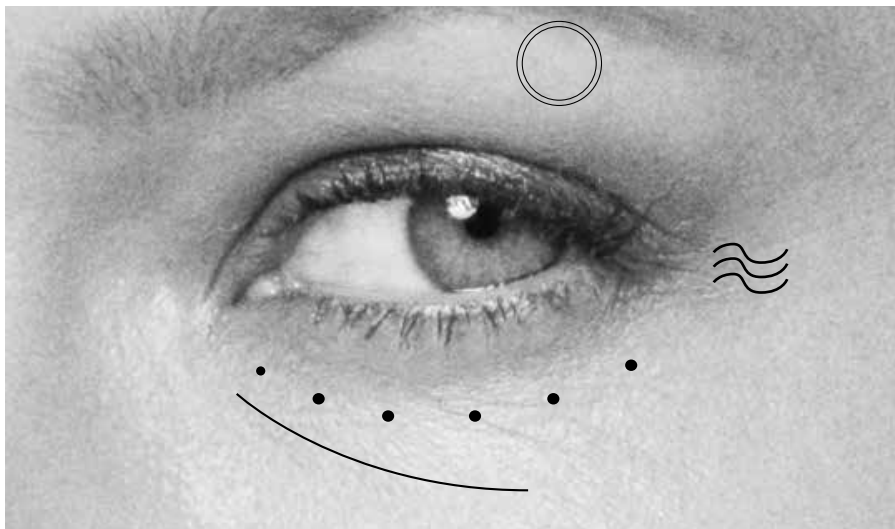

Reduce, **replace,** *repair,* **revitalize**eyes

The unique BEAUTIFEYE treatment protocol.

A holistic treatment delivered in clinic and at home, specifically developed to target fine and fragile skin around the eyes. Our new skin rejuvenation protocol that combines in clinic treatments with a cosmetic SKIN PERFUSION routine at home.

- Improved skin texture
- Correction of fine lines
- Improved homogeneity, density and elasticity
- Restore radiance to the eye contour area

In clinic

BEAUTIFEYE

3-step protocol

STEP 1:

Your practitioner will start by applying the BRIGHT PEEL® by Laboratoires FILLMED that will target uneven skin and pigmentation disorders around the eye. It is adapted to sensitive skin.

STEP 2:

During the 2nd step, your practitioner will inject into the upper dermis the revitalizing solution of NCTF® comprising hyaluronic acid and 59 active ingredients (vitamins, amino-acids, antioxidants...) with the very precise and safe NANOSOFT™ needle that will reduce the risk of bruising and minimize pain during the injection.

Combining NCTF® & NANOSOFT™ will not only target the sensitive area of your face with delicacy but also provide optimal results in less time.

STEP 3:

The soothing B3-RECOVERY CREAM and EYE-RECOVER MASK will smoothly complete this protocol at home. Apply the EYE-RECOVER MASK once the skin barrier is completely recovered.

NCTF® 135 HA AND BRIGHT PEEL®: REJUVENATE

IN CLINIC PROTOCOL: 3 SESSIONS SPACED 2 WEEKS APART

STEP 1
SUPERFICIAL PEELING

STEP 2
MULTIPUNCTURE INJECTION

STEP 3
POST-ACT SKINCARE

BRIGHT PEEL®

NCTF® 135 HA & NANOSOFT™

B3-RECOVERY CREAM
EYE-RECOVERY MASK AT HOME

At home **SKIN PERFUSION** **routine**

Complement with a homecare SKIN PERFUSION prescription for outstanding results.

B3-RECOVERY CREAM

POST-PROCEDURE

Soothing cream to avoid uncomfortable sensations following an aesthetic procedure. The formula is specially designed to protect sensitive and reactive skin from aggressions. Apply repeatedly to the area needing treatment.

EYE-RECOVER MASK

USE ONCE TO TWICE WEEKLY

Its innovative patch design is specifically developed to be applied on the entire eye contour area, to target all the ageing signs for a comprehensive antifatigue and anti-ageing solution.

HXR-EYE CREAM

APPLY DAILY

Apply this global rejuvenating cream to the eye contour area in the morning and/or evening. It will address all signs of ageing: wrinkles, dark circles, puffiness, dehydration.

Realize, real eyes

See how you can enhance skin quality and target fine lines, wrinkles and circles.

BEFORE

AFTER

BENEFITS:

- Fine lines, homogeneity, skin density, improved skin quality.
- Protocol adapted to all seasons, even summer (exposure to sun, UV rays and freezing temperatures should be avoided at least 48 hours after injection).

THINGS TO DO AT HOME TO IMPROVE AND MAINTAIN A REFRESHED AND REJUVENATED EYE CONTOUR:

- Daily make-up removal with a gentle cleanser.
- Do not forget to moisturize with a suitable daily skincare.
- Wear your glasses to avoid extra blinking and muscle contractions which create wrinkles.
- Try a lymphatic massage.
- Having a diet rich in antioxidants.

BEAUTY IS AN ART, WE MADE IT A SCIENCE
